

Meet The **GRAD STUDENT** **Izzy Bur**

What most excites you about your field?

Learning about at-risk species and working to solve difficult conservation problems

Where did you move from?

Minneapolis,
Minnesota

- Cheryl Schultz's Conservation Biology Lab
- Vancouver Campus

Life before grad school:

Rearing and monitoring St. Francis' satyr butterflies in North Carolina and helping establish a captive rearing program for Poweshiek skipperling in Michigan.

Fun fact

I love hiking and looking for bugs!

Can't live without:

My cat 🐾
