

Meet The **GRAD STUDENT** **Tommy Conway**

What most excites you about your field?

I'm excited to enhance my knowledge and appreciation for community ecology.

Where did you move from?

I came from Morgan Hill and Gilroy, California

- Zambrano Lab
- Pullman Campus

Life before grad school:

I studied biochemistry and plant biology during my undergrad at WSU prior to beginning graduate school here.

Fun fact

I love mushroom and plant photography!

Can't live without:
I can't live without nature.
